Self-employment

Full-stack web developer

Since April 2015

More informations coming soon...

Tequilarapido

Wordpress Team Leader

July 2010 to March 2015

I joined the French agency in 2010 as a web developer.

It gave me the opportunity to work in a motivating environment, for several prestigious clients and CAC 40 actors.

After a few years I became in charge of the Wordpress development, which meant designing and keeping up-to-date several modules and enhancements for the CMS, in order to provide tailor-made environments for high-traffic websites and companies such as Renault, GDF Suez or Vivendi.

Self-employment

Frontend developer

June 2009 to January 2012

Two years of freelancing were the opportunity to work on several short-term projects. Most of them were based on Flash AS3, HTML and CSS2.

GGWebside

Web developer

July 2009 to July 2010

I joined the GGWebside agency during my one-year 3D graphics work/study training program.

This experience gave me the chance to manage the existing projects, and work on the development of new websites for several luxury brands and companies.

They were mostly based on Flash AS3 frontends, and a hand-crafted PHP backend.

Professional license in Computer Systems and Softwares

2009 - 2010

3D graphics training
Still images and Movies, Real-time
3D, Compositing, Fine art

Technical degree in Services and Communication Networks

2007 - 2009

A multipurpose training focused on delivering digital products
HTML, CSS, Javascript, Project management, 3D graphics

University of Sciences of Nice Computer programming

2005 - 2007

Self-learning of HTML, Javascript, and Shell

Hobbies & activities

Hiking & rock climbing
Photography

3D graphics
Drawing
